LED Retrofit = Savings

We recently converted the two 1000 watt Quartz / Halogen floodlights on the front of our Richmond California offices to 80 watt E-LED floodlights and the results are phenomenal. In addition to considerable energy savings, we no longer have maintenance issues and the light is amazing.

With an annual energy savings of **\$322** per fixture, it is easy to show the benefits of making the switch.

Original Wattage Per Fixture:	1000
New Wattage Per Fixture:	80
Savings Per Fixture:	920
Number of Fixtures Replaced:	2
Total Watts Saved:	1840 (1.84 KW)
Annual Hours Usage @ 8 Hours Per Night:	2920
Total Kilowatts Saved Per Year:	5372
Energy Cost Per Kilowatt:	\$.12
Total Savings Per Year:	\$644.64
